

*Tricoci University provides TLC to . . .
Juvenile Diabetes Research Foundation*

August, 2010 – Peoria Campus

Beginning on Sunday, August 29th, students from our Peoria campus participated in a Cut-a-Thon, benefitting the Juvenile Diabetes Research Foundation, as part of a local Hy-Vee grocery store's Back to School Event.

For a five dollar minimum donation to the cause, kids and adults could receive a hair cut performed by TUBC students. In addition to offering hair cuts, the event had a variety of other activities, including a local high school drum team, a dunk tank, an interactive ice cream making event, and other fun kid activities.

TUBC TLC helped raise approximately \$625 for JDRF, and our students had a great time celebrating back-to-school time with the community!
