

Tricoci University provides TLC to . . .

Girls on the Run

February, 2010 – Chicago NW Campus

On February 5, Esthetician and Nail Technology Program students and teachers from our Chicago NW campus participated in a local event organized by Girls on the Run (GOTR). GOTR is a national organization that runs programs that encourage positive emotional, social, mental, spiritual and physical development for girls aged eight to thirteen years old.

TLC created a "Spa Day" fundraiser, celebrating the women (moms, teachers, students) at our school while also raising \$700, which paid for half of the GOTR program registration fees charged to participants. In addition, TUBC students were able to provide manicures and skin care treatments for many of the girls participating (see pictures below).

EVERYONE had such a wonderful time! The GOTR contacts couldn't say enough about the professionalism of all the students from TUBC, and the young girls left with smiles on their faces!
