Nurses at St. Francis Hospital

May, 2011 – Chicago NE Campus

As part of "Nurses Week," in May, 2011, the night students from our Chicago Northeast campus had the opportunity to visit St. Francis hospital in Evanston and give manicures and hairstyles to its nurses in a show of appreciation for all that they do. Everyone has either personally experienced or had a person close to them be under the care of a nurse, and it was a nice opportunity for the campus to turn the tables and pamper the nurses.

The event organizer commented, "Your students and instructor did an EXCELLENT job! The nurses told me to make sure to thank you and your team for all of the great care and skills displayed."
