Since our inception in 2004, Tricoci University of Beauty Culture (TUBC) has sought to develop the most “salon-ready” graduates that can quickly be productive professionals for their employers. To further this objective, we have established strong working relationships with a wide variety of salons, day spas and other health and beauty industry service providers.

With the launch of TUBC Salon Corps® in early 2010, we will be able to provide even more value and exclusive benefits to our industry partners.

We have designed this program based on input from many of our industry contacts. We’ll be adjusting the program based on additional input from salons and spas as the program is rolled out. We hope you will join us in making this program a success for all involved!
